DokuTool For PC

Documentation with DokuTool is a handy text editor that allows you to easily create and modify a document. It has more than 700 editing tools. Whether you are writing a simple essay or designing a website, DokuTool has the tools you need. You will be amazed at the number of features it includes. The free version includes all the essential text editing tools. As a bonus, this version has a print previewer which lets you see the changes as you make them. You can export your changes as a PDF, DOC, HTML, or PNG; the choice is yours. If you need more space to write, simply upgrade to the pro version which includes more text editing tools. It offers some great features such as reverse text (opposite of normal text), page rotation, and an easy way to add notes. It even includes a basic screen capture tool. - Microsoft Windows XP or later. - The default language is English. - Requires 16.4 MB of free space. - To view the changes made to the file, press CTRL + S - To exit, press CTRL + Q Slack Palette is a free online app for Windows that helps you quickly create websites using easily editable HTML, CSS, and JavaScript codes. Slack Palette Description: Slack Palette is an online web design software for Windows which offers free unlimited web page creation for desktop and mobile devices. This web application is ideal for users who want a fast and easy way to design their own websites. This web tool uses interactive tools to allow users to create attractive websites that can be viewed on every device or saved in a personal website builder. Slack Palette includes a powerful WYSIWYG editor that allows you to easily edit HTML, CSS, and JavaScript codes to make them look the way you want. Simply type in the text in the editor and the web app will automatically format and style the words as soon as you type. You can add images, multimedia files, and tables to enhance the appearance of the content. Slack Palette also allows you to customize the website's header, footer, margins, and background. The editor includes a CSS selector that allows you to easily style the website's elements. To further improve the website, you can add JavaScript and other code snippets to help make the website more attractive. This web program also includes an integration with other web editing tools like Notepad++, notepad.exe, and Sublime Text.
