Prey Invasion is a SpaceVenture-style fan-project I made during the KS campaign for Starbound. It was funded on August 17th, 2018, the campaign ended on August 23rd, 2018. If you never played Starbound before, it is a procedurally generated sandbox game that can be played alone or with friends. The goal is to survive, explore and discover an alien planet, filled with dangers and surprises! The game features three playable character classes: Science, Engineering and Survival. Each class features unique equipment, upgrades and skill trees to explore.
